

Business Grade Ethernet, EFM, SHDSL

Last updated: 29/08/2018

Information about the Service.

Early Exit Fees

Early Exit/Termination Charges (ETCs) apply to all Contracted Services. 30 days notice is required for all cancellations.

Fibre, SHDSL, EFM, Ethernet, nbn™ and DSL services are all contracted to the completion date in the contract. You will have to pay 100% of the remaining contract.

You can work it out by: $36 \text{ months} - \text{Used Months} = \text{Remaining Months} \times \text{Monthly Usage Fee} = \text{Payout Figure}$

Equipment Repayment Plan

If equipment such as modems, routers, switches, is part of the monthly bill, you will have to pay 100% of your remaining instalments if you cancel your service.

Installation

We reserve the right to charge for installations. We will seek your approval for any charges to be incurred prior to installation.

You must obtain permission from the owner of the property and have someone over 18 years of age in attendance at any install appointment.

Your service installation may require up to four site appointments depending on varying factors.

Minimum Term

All service contract terms are 36 months unless otherwise stated on your contract.

Billing

On the same day each month, we will bill you in advance the monthly charge.

Your first bill may include pro rata charges for part of the month depending on when the service began. This means your first bill will include your minimum monthly charge in advance and part of your minimum monthly charge based on the number of days left in the billing period.

You will receive your bill via email.

If direct debit, to comply with the contract you must ensure we have the correct details for the life of the service.

All credit accounts are 14 day terms.

Fee for Service

We are a provider of business grade services, level 1 troubleshooting needs to be performed before lodging a fault. If a fault is a result of client premise equipment (CPE), or damaged internal infrastructure; the carrier reserves the right to charge for the technician callout. If this occurs, this charge will be on-billed to the customer from Access Digital Networks.

Hardware Needs

You will need a gateway (router) to use our services. You can use your own gateway provided it is compatible with your service or purchase one from us which is configured to work with your service.

Please let us know if you use equipment such as disability or medical services or a back-to-base alarm. Some equipment may require an alternative service or additional equipment. We will tell you if we are not able to support the equipment.

Moving or Relocating Services

Services are contracted to the address specified when ordering; we can however put in for a service relocation. This will incur a once off relocation or termination fee and also a variation to the monthly fee which will depend on your new location.

Information about Pricing

All prices exclude GST. As a wholesale carrier, pricing varies and is dependent on multiple factors including Partners current service levels.

If one of our suppliers raises its prices in the future, this may result in the cost of your service increasing. We will let you know before this occurs.

*This is a summary only – the full legal terms for these services are contained in your original agreement and Our Terms, which are available at accessdigital.com.au/policies.

Other Information

We are here to help, for more information on our Policies and Terms, view them at accessdigital.com.au/policies. If you have any questions about your bill, or need technical support, you can contact us on 1300 326 332
